

Mariya Khan

Elementary Educator & Instructional Designer

Professional Profile

Education represents the power of communication, collaboration, and technology. It is a rewarding career path that involves intuition, creativity, and innovation. What is my overall vision? To create an inclusive community of life-long learners in which each individual is valued and respected. I aspire to create an engaging environment in which technology is the gateway tool to successful learner-centered instruction.

- Design online learning environments (K-12 and higher education) that differentiate for all individuals.
- Design and development of social online learning solutions, driven by specific learning theories.
- Implement and produce visually interactive, game-based learning experiences.

I have enjoyed working with Mariya as my virtual intern. She has impressed me with her insight and ability to locate herself into my chosen Early Years module. I was pleasantly surprised to find that she researched areas of interest, using my module outline and handbook to guide her – this was unexpected, and has resulted in an interesting and engaging presentation for prospective students. She was sensitive and interested throughout. Mariya constantly sought advice about my requirements, and has provided an interactive and enjoyable module site, which I am sure will engage and enthuse students on the course.

Dr Lone Hattingh

Senior Lecturer, Early Years Education
Bath Spa University - Institute for Education

Mariya, you have established an excellent classroom rapport with this group of challenging students. The classroom routines run well. She dignifies the students, in times when they get the answers wrong, in how she approaches fixing their mistake. This was evident in how she silently corrects students who are talking at an inappropriate time. You have the students do a variety of activities which engaged them and most of them were able to master the concept.

Gregory Miller

Principal, T.C. Martin Elementary (2015-2016)

Ms. Khan has been a very valuable addition to Arthur Middleton Elementary School. She has high expectations for her students and they rise to meet her expectations. Behavior management is a strength. Ms. Khan works several hours beyond her 37.5 hour work week to ensure that she is prepared for the next day. Her work ethic is to be commended. Mariya, I'm so glad to have recruited you to be a part of Middleton's staff. You have huge potential to be an educational leader.

Mariya, you are certainly an asset to Arthur Middleton Elementary School. You are detail-oriented, work long hours, and are your own worst critic. Thank you for accepting the role of Team Leader and helping your team of first year teachers along the way.

Sabrina Robinson-Taylor

Principal, Arthur Middleton Elementary School
